

## **MÓZ DESIGNS ANNOUNCES EXPANSION OF COLUMN COVER PRODUCT LINES**

OAKLAND, CA

Móz Designs has announced new production capabilities and faster turnaround of architectural column covers for all commercial installations, including hospitality and resort, shopping centers, airports, healthcare and more.

With over 500 color, grain and pattern combinations available, Móz column covers are a practical design solution for new construction and remodeling projects. They can be specified in both exterior and interior finishes for an enhanced architectural appearance.

Móz column covers are fabricated from heavy-gauge .090” to .125” solid core aluminum. Stainless steel from .050” to .063” is available, along with perforated and laser-cut aluminum.

New state-of-the-art, Móz-exclusive CNC machinery is now in operation and allows for more competitive pricing, greater capacity and quicker lead times.

Columns are pre-formed and pre-engineered by Móz for easy, on-site installation. Environmentally-friendly, Móz metal columns are fabricated from recycled aluminum and contribute to LEED 2.0 MR Credit 4, recycled content. All Móz architectural and decorative metal products are designed, sourced and manufactured at the company’s facility in northern California.
