

MÓZ DESIGNS LAUNCHES GRAPHIX METAL COLLECTION, INSPIRED BY TIMELESS TEXTILE PATTERNS

OAKLAND, CA

Móz Designs, an innovator in decorative metal products, announces the release of the Graphix Metal Collection. The new color collection integrates Móz metal

surfaces with a brilliant new line of graphic patterns inspired by timeless textile designs.

Created for a versatile range of applications, Graphix multi-layered metal panels can be installed as surface laminates or specified as one of the Móz ETA (Easy-to-Assemble) products, including column covers. The material can also be used to create custom fixtures and signage.

Dramatic Graphix patterns offer unique opportunities to create inspired designs, and can also

be incorporated into a branded environment for business and corporate centers, hospitality venues, retail sites and healthcare facilities.

The illustrative patterns are entitled Marrakesh, Serpentine, Loom, Morocco, Cosmos, Tabby and Flare, and are highlighted with a signature Móz textural grain. Luminous color options are available to complement any design concept – from subtle and sophisticated lobbies to vibrant and trendy showrooms.
