

MÓZ DESIGNS ENGRAVINGS COLLECTION **FEATURES MULTI-DIMENSIONAL FINISHES**

OAKLAND, CA

Móz Designs breaks new ground in decorative metal

surfacing with the introduction of the multi-dimensional Engravings Collection. Engravings features

a choice of eight patterns engraved into the surface of Móz solid core aluminum panels. The Collection also offers a selection of applied textural grains and a rich palette of color options, allowing customizing opportunities.

A dramatic alternative for interior applications, Engravings can be applied as walls, column covers, door skins, bar dies, reception centers and more.

The Collection includes contemporary and timeless engraved pattern themes: Circuit, Crossroads, Cubes, Current, Dash, Mason, Matrix and Strings.

Engravings is offered in 4' x 8' or 4' x 10'

aluminum sheets with material thicknesses from .090" to .125". The rigid .090" solid plate aluminum is easy to apply using a panel or contact adhesive. Finishes are available in polycoat gloss and matte.

Móz Designs wall coverings are shipped ready to install with hardware and mounting accessories. Móz Engravings is fabricated from recycled aluminum, contributing to LEED 2.0 MR Credit 4 – Recycled Content.
