

**NEW MÓZ BLENDZ PATINA COLLECTION OFFERS  
ELEGANT SIGNAGE DISPLAYS WITH TIMELESS, NATURAL FEEL**

OAKLAND, CA

Móz Designs' nature-influenced Blendz Patina Collection

now offers creative new concepts in signage and wayfinding displays. Blendz Patina's natural finishes offer a unique alternative to standard signage materials for shopping centers, hotels and resorts, entertainment facilities, airports and many other interior installations.

The Patina Collection integrates the depth of color and variegated tones of copper and other natural materials in a lightweight, easy-to-install Móz metal, yet without the installation or maintenance issues associated with copper. Móz metal products are also rust-resistant and ensure consistent color integrity.

*BLENDZ PATINA SIGNAGE*

Along with new Móz Patina finishes, the Blendz Collection features multiple palettes of blended colorways in a varied range of tones. Standard Móz textural grains can be incorporated into the colorways. The entire series can be viewed at: [www.mozdesigns.com/blendz/](http://www.mozdesigns.com/blendz/).

Blendz Patina is fabricated from solid core aluminum, available in thicknesses ranging from .040" to .125". Standard sheet sizes are: 48" x 96" and 48" x 120". Custom sheet sizes can also be ordered.

All Móz metals are manufactured from recycled aluminum and contribute to LEED 2.0 MR Credit 4 – Recycled Content.
