

## MGM Grand - T-Mobile Arena VIP Lobby

---

Located at the MGM Grand, the VIP Lobby of the T-Mobile Arena tells a cohesive story about the Las Vegas strip through a dimensional wall design inspired by the color of the surrounding desert mountains.

This rolling metal wall feature at the VIP Lobby of the T-Mobile Arena was made by combining MóZ standard products and custom fabrication. MóZ designed a new color, Blendz 476, to create an abstract desert landscape in waves of copper, bronze, and green printed on high quality sheet metal.

“Loved, loved, loved the custom wall panels in the VIP lobbies at Las Vegas. The returned, finished edges were perfect, everything clicked together like a puzzle without a hitch. It was neat, clean, well fabricated and gorgeous. Transitions were great, edge conditions were great, finishes were great.”

—Tracy Tapp, Associate IIDA, Principal

### Specifications

---
