

METAL WALLS

Classic Khaki, Fog

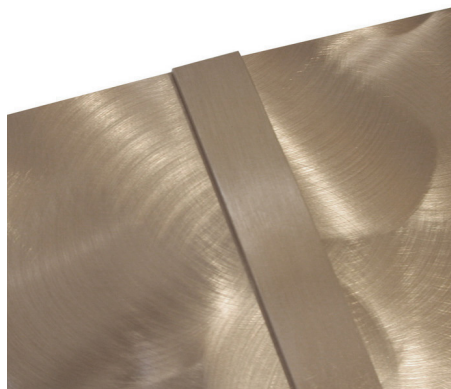

Laser Cut Morph, Classic True Brass, Fog

Sheets and Trims

Experience the beauty of Móz Metals with full-sized sheets and trims. The structural stability provided by our solid metals allow for more versatility than standard foil laminates.

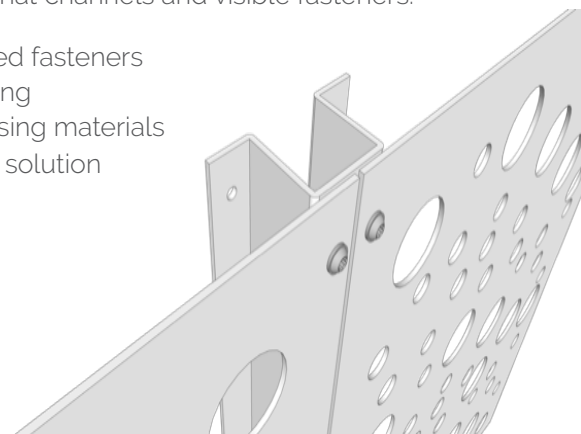

- Solid-core .040" aluminum
- 4'x8' and 4'x10' sizes sheets
- Direct apply to a solid substrate
- Matching seam and corner trims

Hat Channel Wall System

An economical way to mount rigid metals for walls, ceilings, and exterior installations using hat channels and visible fasteners.

- Rigid panels with exposed fasteners
- Clearance for back lighting
- Led strips and light diffusing materials provided for a complete solution

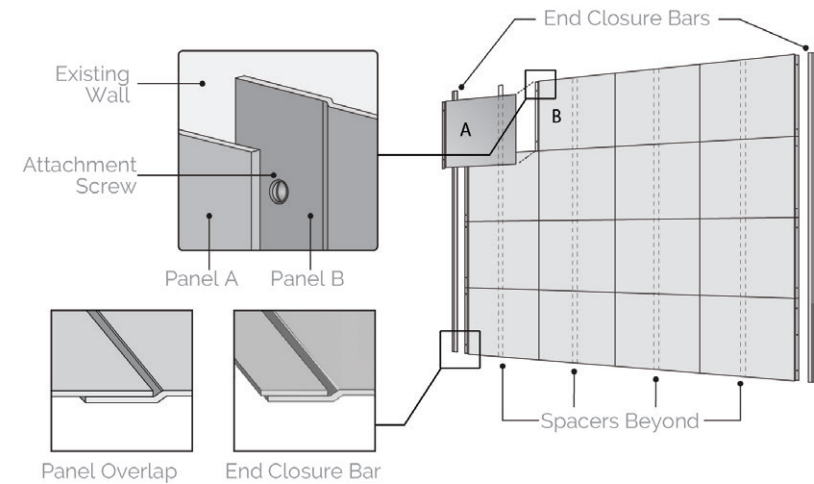

Terrace Wall System

Create a high-end look without stretching your budget. Utilizing .090" aluminum, this ready to install system is more durable than a laminate.

- Rigid Panels for higher impact
- Lap joints for clean seams
- Field friendly system with end closure bars
