

ARTESSA DULO

Frame with two panels includes:

Two panels, welded frame with pre-mounted channels, panel fasteners. Mounting holes provided for floor-to-ceiling attachment.

Panel Size:

4'x8' Standard size (max 4'x10')

Material options:

3/16" Laser Cut Aluminum
1/8" Perforated Aluminum (with solid margins)
.090" Solid Aluminum
.090" Engravings Aluminum (single sided only)

Design Flexibility:

Front and back panels can match or contrast—choose to flip, rotate, or mix materials for a dynamic, dimensional look.

Interior applications only

Mounting & Support:

Frame:

3"x3" Welded frame (painted in a complementary color)
Anchored floor to ceiling in the field.
Shimming may be required.

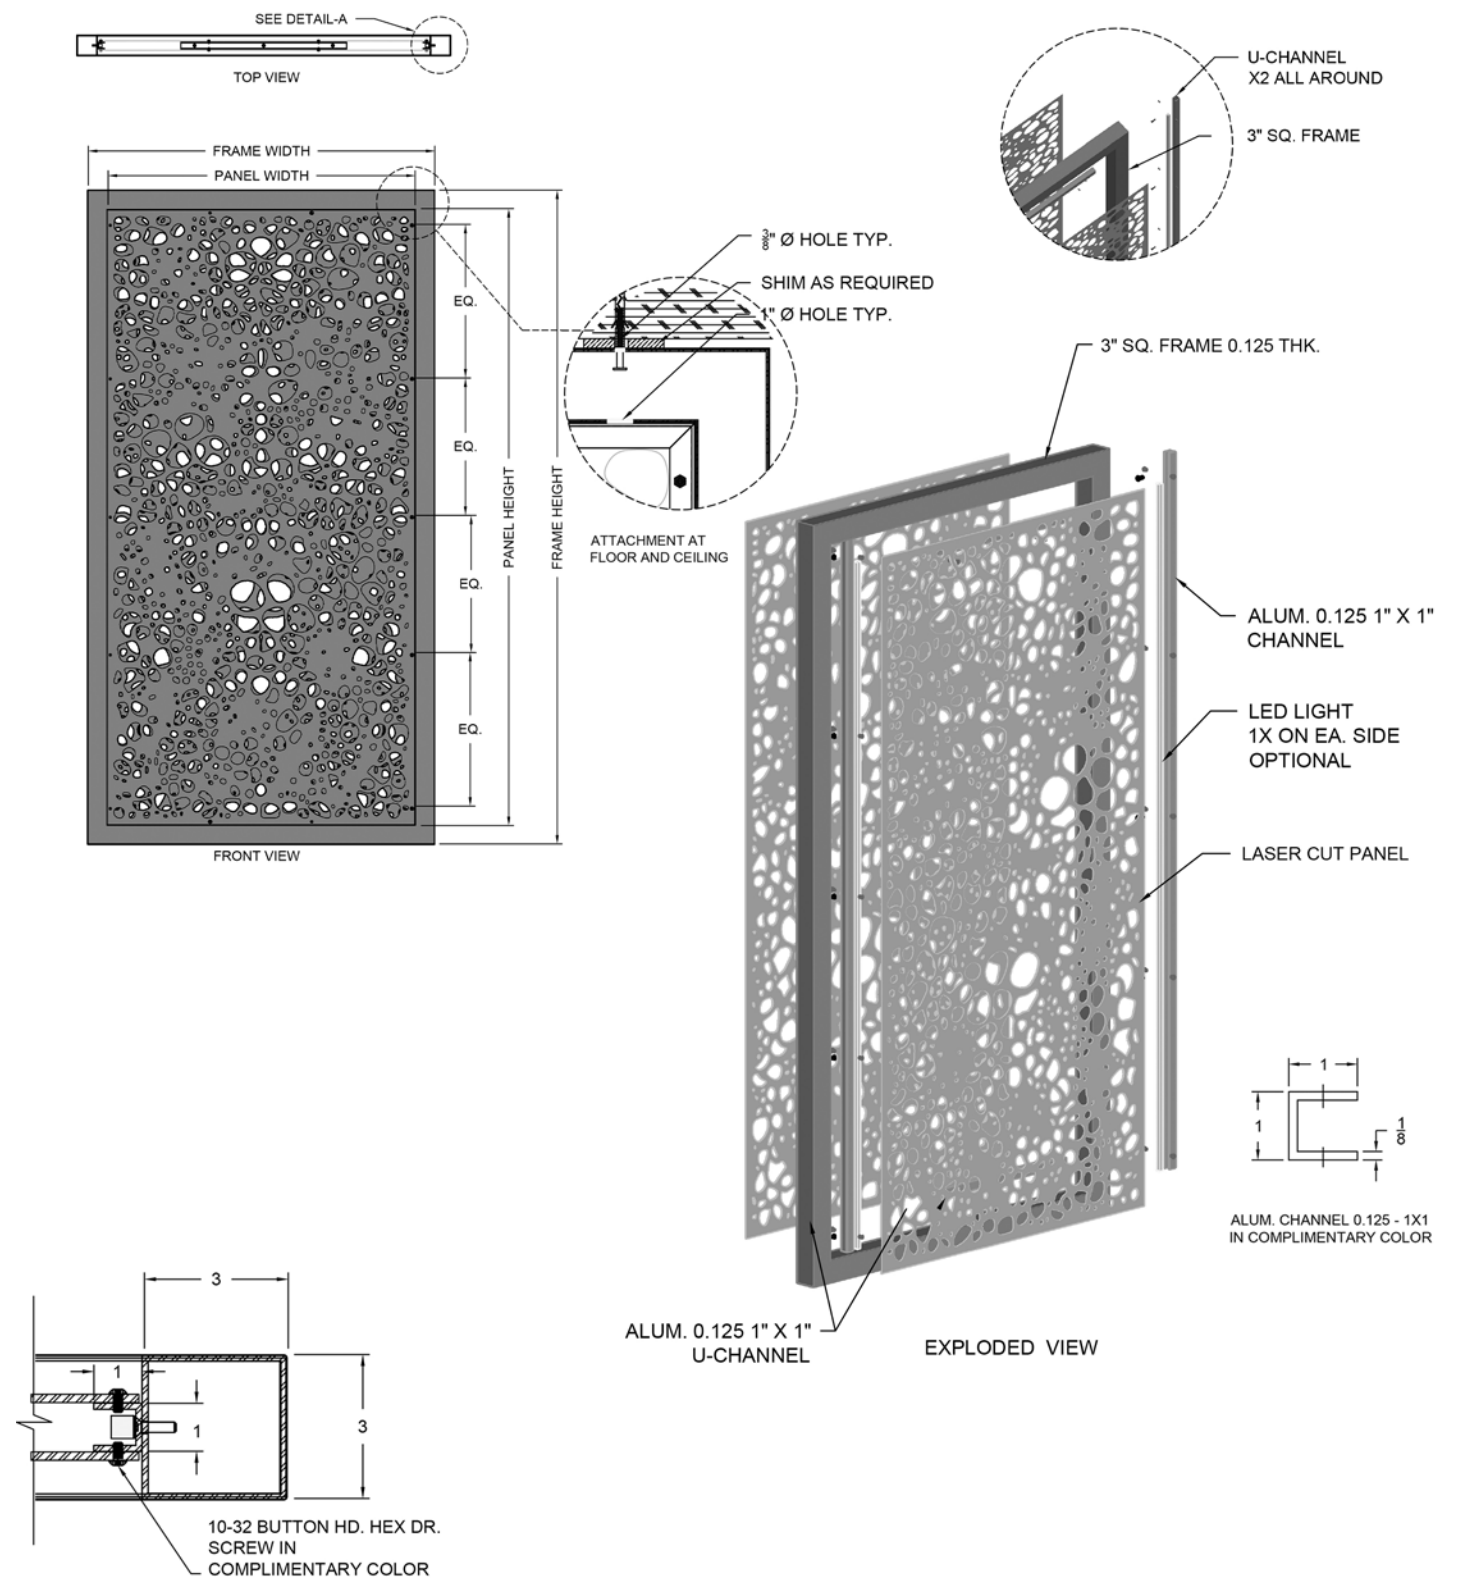

Channel Mounting:

1" x 1" U-channels attach panels with visible fasteners.

(All components painted to coordinate with the frame).

Custom options:

- Continuous Framed Panels: Choose a slimmer 1.5" x 3" frame for a seamless, uninterrupted appearance.
- Lighting Integration: Optional edge lighting at left and right sides.
- Freestanding - Max height 30"; anchors every 16".
(Decorative use only—not suitable for guardrails or balconies)

Installation notes:

Fasteners and mounting substrate to be provided by others.
Install on a straight, flat surface for best performance and alignment.
