

VERTENZA TRILO

Posts with Grippers includes:

Preassembled three-layer panels, grippers, posts, and floor/ceiling mounting plates.

Panel Size:

4'x8' Standard size (max 4'x10')

Material options:

- Outer Layers: 1/8" Laser Cut or Perforated Aluminum (Laser cut panels must match)
- Inner Layer: 0.063" Perforated or Solid Aluminum (finished both sides)

Interior applications only

Mounting & Support:

Posts:

2" square aluminum posts in Brushed Clear finish with 4" square base plates (floor and ceiling). Standard post height up to 12'.

Panel Grippers:

Brushed stainless finish, supports material up to 1/4" thick. 4' x 8' panels require 6 grippers. 4' x 10' panels require 8 grippers.

Custom options:

- Round post profile
- Painted posts and grippers in a complementary color
- Freestanding option available (some movement or flexibility expected).

VERTENZA TRILO

Installation notes:
 The triple-layer panel assembly is heavier, and may require additional assistance for handling. Mounting substrate and fasteners to be provided by others. Ensure installation on a flat, even surface for best results.
