

Móz Dividers: Post with Angle

Technical Information

Móz dividers provide both form and function—allowing us to reimagine open floor plans into safe separate spaces, without the loss of human connection or the need for costly structural changes.

Our Divider Solutions are offered in a variety of signature material options.

Each solution delivers ready to install; all panels and hardware are included to help save time on installation.

STANDARD FEATURES

- Standard panel size 3' x 5' or 3' x 8'
- Standard 3-panel kits available in 5' and 8' panel heights
- Each panel is 3' wide and double-sided
- Includes all attachments - Posts, angles and plates for affixing floor to ceiling

MATERIAL OPTIONS

- Solid .090" aluminum (up to 1/4")
- Perforated .090" aluminum with solid margins (up to 3/16")
- Laser Cut 3/16" aluminum (up to 1/4")
- Engravings 1/8" aluminum (up to 3/16")

HARDWARE INCLUDED

Post & Brackets (floor/ceiling)
