Taking digital art to a whole new level: Digital Imagery by Móz Designs

by Mick Tan | Aug 21, 2018 7:16am

Móz Designs added a unique take to its range of custom metal fabrications that takes a digital image and integrates it onto a surface.

Named Digital Imagery, the new process uses high-res imagery supplied by customers that Móz Designs then applies to metal to create a custom multi-layered piece of wall art.
