

Metals + Architectural Products

With over 30 years of custom fabrication experience, we are your resource for architectural metals. We are a one-stop-shop providing turnkey solutions to your design challenges.

**Products**

- Sheets (for laminate use)
- Wall Panel systems (flat and dimensional)
- Column Covers systems (round, square, oval, custom)
- Partition systems
- Backlit metal solutions (columns, wall, ceilings, exteriors)
- Ceiling solutions
- Exterior solutions
- Fixture solutions

**Finishes**

- Signature Color Collections
- Digital Printing
- Overlamine Coatings (wood films/textured vinyls)
- Powder Coatings
- Fluoropolymer Coatings (Kynar)

**Fabrication Capabilities**

- CNC routers, Perforating, and Laser Cutting
- 12' capacity Sheering, Rolling, and Brake Press
- Corrugating
- Welding / Fabrication / Assembly Stations

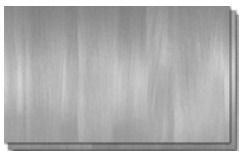

**Project Management**

We help the architecture and design community every step of the way; from conceptual design through installation. We can take any metal product from beginning to end offering:

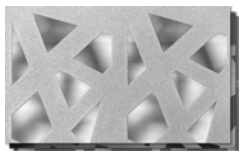

- Design/CAD assistance
- Value engineering
- Specifications and technical drawings
- Special attention to details and quality control
- Installation support

**MATERIALS**

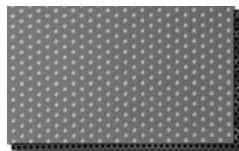

Móz metals are made from solid core metal and are available in a variety of gage thicknesses to go beyond a traditional laminate to become a true building material. Choose from solid, laser cut, perforated, corrugated, or stainless steel.

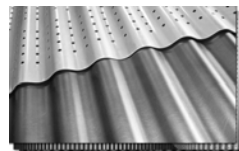

ALUMINUM

LASER CUT

PERFORATED

CORRUGATED

STAINLESS

**Our Carbon Footprint**

Móz Products are proudly made in the U.S.A. where our company was founded in Oakland, California. All raw materials are domestically sourced when possible and our over 30,000 square foot facility is 100% solar powered to ensure we leave the smallest carbon footprint.
