## Móz Designs Introduces a Jewel-Tone Color Palette

Vibrant new hues invigorate spaces with comfort and joy

(Oakland, CA) March 2022 — Award-winning metal experts, [Móz Designs](#), are thrilled to introduce a Jewel Tone color palette with sophisticated hues that shine in commercial spaces. An extension of their Classic and Powder Coat collections, Móz bolsters their signature offerings with a new selection of jewel-inspired shades that complement neutral tones while offering dynamic contrast and character. As designers seek bold, refined hues that anchor a space and add unique expression in 2022, Móz drew from nature's richest shades to create a range of colors that bring personality and depth to walls and ceilings in healthcare, corporate, and hospitality settings.

“As the design industry shifts out of a period of neutral tones and embraces colorful, entertaining surroundings, we wanted to create a joyful spring palette that welcomes us back into communal environments,” says Dzoanna Pavulina, Móz Designs’ Product Designer. “The Jewel Tone Palette adds personality and joy to the spaces it inhabits, celebrating the designers’ use of bold colors during this pivotal moment in design.”

The extension of the Classic collection includes four new shades—Rose Gold, Steel Lavender, Peacock Green, and Night Blue. Inspired by jewel tones created by Mother Nature herself, Móz’s new palette feels luxurious yet organic, adding richness to commercial spaces while maintaining the comfort of our natural environment. Jewel-inspired hues also extend into Móz’s Powder Coat collection, bringing six new shades—Emerald Sand, Metallic Rose, Steel Grey, Blue Pearl Metallic, Midnight Blue, and Sahara Gold to smooth, textured, and gloss finishes suitable for interior or exterior applications.

Metals + Architectural Products

Designed with 100% recyclable aluminum, one of the most sustainable materials in the world, Móz's Jewel Tone Palette breathes new life into the possibilities of industrial metal, offering design-forward architectural solutions that deliver on durable, diverse function and colorful, space-defining form.

The Classic collection's Jewel Tone Palette is available on multiple grain patterns, including Silk—a new grain made with fine lines for a sophisticated, polished finish. Select Laser Cut, Engravings, and Perforated patterns are also available. The Powder collection's new palette is available in Solid, Perforated, Laser Cut, Engravings, and Corrugated collections. Both the Classic and Powder Coat collections are available in aluminum sheets ranging from 0.040" to 0.25" in thickness. Standard sheet sizes are 4'x8' and 4'x10'.

## **About Móz Designs**

### **Metals + Architectural Products**

Móz designs and fabricates architectural metal sheets, columns, ceilings, walls, and room dividers in Oakland, CA. Using a unique balance of color, texture, and grain, Móz redefines metal surfacing materials to create architectural metal products for commercial, hospitality, workplace, transportation, entertainment, and retail markets, from large-scale exterior installations to easy-to-assemble products and surface applications. Móz's innovative products, solutions, and dedication to customer service help designers achieve their vision on time and on budget. The Móz business, a wholly-owned subsidiary of Armstrong World Industries since August 2020, operates independently but collaboratively with AWI.
