## **Móz Designs Introduces 9 New Laser Cut Designs Inspired by Nature's Blueprint**

The Origins of Nature Laser Cut Collection celebrates organic shapes, gentle curves, and fluid movements.

(Bay Area, California) October 2024 — Award-winning metal experts [Móz Designs](#) introduce nine new patterns to their popular Laser Cut Metal Collection. Drawing inspiration from biology's building blocks, this collection celebrates organic shapes, gentle curves, and fluid movements found in nature. By focusing on nature's intricate beauty at the microscopic level, the designs reveal delicate structures that often go unnoticed. Reflecting the ever-changing dynamics of the natural world, these patterns embody the principle of constant growth and evolution as they seamlessly sequence to create large-scale patterns. Despite being crafted from metal, they maintain a softness and fluidity that balance modern and timeless aesthetics.

Dawn Pattern in Backlit Classic Brazilian Cherry

“This collection is more than a design; it’s an invitation to reconnect with the origins of life, to appreciate the beauty of growth and change, and to infuse your space with the essence of nature,” says Dzoanna Pavulina, Designer at Móz Designs.

Cellular Pattern in Classic Light Champagne

The new patterns—Breeze, Chanterelle, Biomorphia, Synapse, Nebula, Cellular, Blossom, Falls, and Dawn are meticulously designed to create cohesive sequences from individual panels. Carefully developed to infuse commercial spaces with the essence of nature, this collection offers a seamless design solution for high-traffic settings such as lobbies, schools, airports, and shopping centers, all while requiring minimal upkeep.

## **About MÓZ Designs**

### **Metals + Architectural Products**

MÓZ designs and fabricates architectural metal sheets, columns, ceilings, walls, and room dividers in the Bay Area, CA. Using a unique balance of color, texture, and grain, MÓZ redefines metal surfacing materials to create architectural metal products for commercial, hospitality, workplace, transportation, entertainment, and retail markets, from large-scale exterior installations to easy-to-assemble products and surface applications. MÓZ's innovative products, solutions, and dedication to customer service help designers achieve their vision on time and budget. The MÓZ business, a wholly-owned subsidiary of Armstrong World Industries since August 2020, operates independently but collaboratively with AWI.
