

Classic Metals at the Hilton Boston/Dedham

The newly renovated lobby at the Hilton Boston/Dedham offers guests timeless sophistication framed by Móz classic metals.

In April 2017, the Hilton hotel in Dedham, Massachusetts completed a multi-million dollar renovation to its guest rooms and lobby spaces. Catering to both the business and the leisure traveler, the renovation aimed to highlight the hotel's classic architecture. Boston's legacy and nouveau chic styling converged in the inspired re-imagining of this historic hotel.

Among the new highlights at the Hilton Boston/Dedham were the neutral metal wall features manufactured by Móz. Panels of Khaki sheet metal were selected from the Classic color collection and treated with a Fog grain and a Polycoat Matte finish. Centrally located in the hotel lobby lounge, the focal wall achieved a suede-like effect using a durable surface material. With a plush mix of raw, tactile elements and sleek modern details, the Hilton Boston/Dedham was invigorated with a tasteful new ambiance.

Lobby featuring metal panels in Khaki

Specifications

Project Name: Hilton Dedham Renovation

Industry: Hospitality

Location: Dedham, MA

Year of Installation: 2017

Designer: Group One Partners, Boston

Product: Sheet Metal, Laser Cut Sheets

Metal: Aluminum

Color: Khaki, Classic Collection

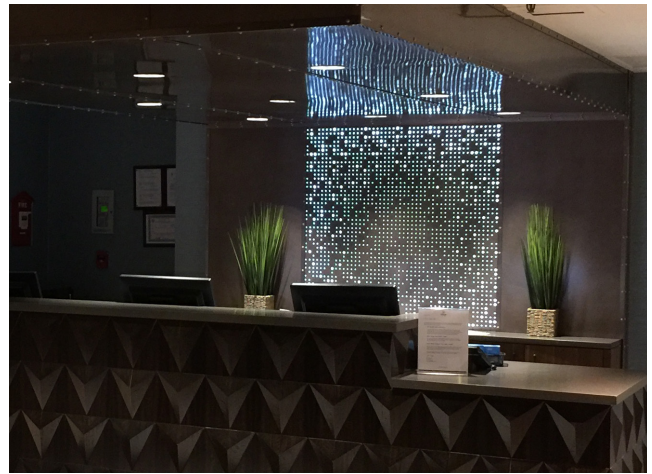

Grain: Fog

Finish: Polycoat Matte

In addition to the metal focal wall, the Hilton hotel lobby also included a laser-cut metal wall-to-ceiling fixture that framed and illuminated the front desk area.

Using the same classic Khaki sheet metal, three-dimensional panels were fabricated and joined according to precise specifications. The backdrop incorporated Móz's laser cutting abilities, which broke up the aluminum surfacing with a fine dotted pattern. The final fixture was backlit to create an ambient light effect that brightened the recessed space. The material added a chic, metal texture to the room's neutral color palette, while the ability to create custom products drew designers to choose Móz.

"We are thrilled with the revitalization of the Hilton Boston/Dedham," says Joseph Dadiago, General Manager. "The hotel has long been a fixture in the Dedham area, and we are excited to offer our guests and the community an enhanced experience."

About Móz

Móz designs and fabricates architectural metal products out of Oakland, California. Our collection of sophisticated materials—including metallics, gradients, patinas, and bold colorways—are the result of continuous experimentation with cutting-edge tools, digital imagery, handcrafted engravings, and laser cutting equipment.

Our team redefines metal surfacing using a unique balance of color, texture, and grain to make architectural metal products crafted for industrial, commercial, and residential markets—from large-scale corporate projects to one-off surface applications. Our innovative solutions and dedication to customer service help our clients achieve their designs through quality materials.
